Explores neurological disorders and their effects upon the minds and lives of those affected with an entertaining voice. She was a painting by Titian; she was queen of the Holy Roman Empire, and 500 years ago an audacious

sisterhood buried a secret in her name. Lisbon 2020: a pair of forensic archaeologists discover a strange skull buried with the original occupant inside a fifteenth-century tomb. That same night, one archaeologist is murdered and the skull stolen, leaving the surviving archaeologist to dispatch a plea for help. Enter Phoebe McCabe and the Agency of the Ancient Lost and Found, now assigned to help a headless client become reunited with his skull. Yet, why would anyone steal a centuries-old cranium in the first place? But the unfolding truth is more baffling than anyone could have imagined. The missing skull may hold the key to centuries of European intrigue, religious fanaticism, and political upheaval. As Phoebe digs, layers of royal plots emerge, along with tales of persecution and an underground resurgence of a brotherhood so virulent that it threatens the world to this very day. Yet, even in the fifteenth century, the sect had its enemies, and Phoebe needs to find the clues those long-dead allies left behind. For that, she must look in surprising places. As she races to locate the skull she calls on instinct, intuition, art, and the help of an ancient sisterhood. Somewhere in the past lies the key to save the future and it will take every resource Phoebe possesses to pull the pieces together in time. From the misty forests of Portugal to the castle promontories of Spain, Phoebe is pitched against a breed of fanatic it will take all her skill to beat. An attempt to identify the lost tribes of Israel with the North American Indians. #1 NEW YORK TIMES BESTSELLER • A modern, sophisticated suspense novel from National Book Award finalist, and Printz Award

honoree E. Lockhart. Don't miss the eagerly anticipated prequel, *Family of Liars*, available May 2022! A beautiful and distinguished family. A private island. A brilliant, damaged girl; a passionate, political boy. A group of four friends—the Liars—whose friendship turns destructive. A revolution. An accident. A secret. Lies upon lies. True love. The truth. Read it. And if anyone asks you how it ends, just LIE. "Thrilling, beautiful, and blisteringly smart, *We Were Liars* is utterly unforgettable." —John Green, #1 New York Times bestselling author of *The Fault in Our Stars*

Author Anselm Anyoha struggled with finding time to exercise because, like so many others, he worked long hours. When the weight started to add up and his overall health declined, however, he realized something needed to change. His doctor wanted him to take pills, but that was just going to cover up a problem--not fix it. While he had previously enjoyed fast food, refined cereal, soda, and other goodies, he cut those out of his diet and retooled his lifestyle. Now, he takes responsibility for what he eats. In this handbook for healthy living, he shares how to - equip yourself with credible information about food;- discover truths about your own body that can help you lose weight;- appreciate the dynamics between weight maintenance and physical fitness; and- understand the relationship between obesity and diseases such as hypertension. By researching nutrition, resisting the food industry's ploys to win his taste buds, and relying on willpower, Anyoha lost thirty pounds--and he's kept it off for more than two years. You can match and beat his results by taking control of your

health. A “wide-ranging and thoughtful” (Wall Street Journal) exploration of the varied obsessions that the “civilized West” has had with decapitated heads and skulls. The human head is exceptional. It accommodates four of our five senses, encases the brain, and boasts the most expressive set of muscles in the body. It is our most distinctive attribute and connects our inner selves to the outer world. Yet there is a dark side to the head’s preeminence, one that has, in the course of human history, manifested itself in everything from decapitation to headhunting. So explains anthropologist Frances Larson in this fascinating history of decapitated human heads. From the Western collectors whose demand for shrunken heads spurred massacres to Second World War soldiers who sent the remains of the Japanese home to their girlfriends, from Madame Tussaud modeling the guillotined head of Robespierre to Damien Hirst photographing decapitated heads in city morgues, from grave-robbing phrenologists to skull-obsessed scientists, Larson explores our macabre fixation with severed heads. This fast-paced action novel is set in a future where the world has been almost destroyed. Like the award-winning novel *Freak the Mighty*, this is Philbrick at his very best. It’s the story of an epileptic teenager nicknamed Spaz, who begins the heroic fight to bring human intelligence back to the planet. In a world where most people are plugged into brain-drain entertainment systems, Spaz is the rare human being who can see life as it really is. When he meets an old man called Ryter, he begins to learn about Earth and its past. With

Ryter as his companion, Spaz sets off an unlikely quest to save his dying sister -- and in the process, perhaps the world. Kafka on the Shore displays one of the world's great storytellers at the peak of his powers. Here we meet a teenage boy, Kafka Tamura, who is on the run, and Nakata, an aging simpleton who is drawn to Kafka for reasons that he cannot fathom. As their paths converge, acclaimed author Haruki Murakami enfolds readers in a world where cats talk, fish fall from the sky, and spirits slip out of their bodies to make love or commit murder, in what is a truly remarkable journey.

Anne Boleyn was beautiful, gifted and clever. As a teenager, when she arrived at the English court after completing her education in France, she soon caught the eye of King Henry VIII. Henry wooed Anne with passionate love letters and finally, after a great struggle, was allowed to marry her, having secured a divorce from his first wife Catherine of Aragon. Love soon turned sour however, as Anne realised that all her husband wanted from her was a son and heir. The birth of Elizabeth, the future queen, in 1533, was a disaster and the consequences for Anne were deadly.

Annabelle, Annabelle, Lost Her Head is a story that reveals, the bond between a child and their lifelong companion is stronger than... Duct Tape. Lucy's unconditional love is evident in this edgy, dark side of the moon, real world adventure between a girl and her doll. Watch them as they work through struggles, and celebrate in their victories. This pair can work through any challenge in their path, when they work together, and a little bit of magic never hurt. "Dennis Cass ventures into the terra

infirmia that is neuroscience, and returns with a fascinating, funny and touching tale. I recommend it for anyone who owns a brain.” -- AJ Jacobs, New York Times Bestselling author of *The Know it All* In the tradition of *Supersize Me*, Dennis Cass becomes a human guinea pig in a darkly comic journey to understand the human brain and find out what makes us who we are Infiltrating the world of neuroscience, Cass offers his own brain up to science, subjecting his mind and body to electric shocks, mind-numbing attention tests, stress tests of his own devising and cigarettes. In the spirit of George Plimpton and early Tom Wolfe, his exploits reveal the intricacies of fear, attention, stress, reward and consciousness from the inside out. Along the way, he weaves in the story of stepfather ’ s manic depression and drug addiction, as well as his own troubles with stress and depression, giving neuroscience a personal touch along with the clinical facts. Cass attacks the subject of the human brain with wit and candor, turning popular science into something distinctly human. *Head Case* is an imperative read for anyone who ’ s ever asked themselves why they are who they are. From Andrew Roberts, author of the Sunday Times bestseller *The Storm of War*, this is the definitive modern biography of Napoleon It has become all too common for Napoleon Bonaparte's biographers to approach him as a figure to be reviled, bent on world domination, practically a proto-Hitler. Here, after years of study extending even to visits paid to St Helena and 53 of Napoleon's 56 battlefields, Andrew Roberts has created a true portrait of the mind, the life, and the military

and above all political genius of a fundamentally constructive ruler. This is the Napoleon, Roberts reminds us, whose peacetime activity produced countless indispensable civic innovations - and whose Napoleonic Code provided the blueprint for civil law systems still in use around the world today. It is one of the greatest lives in world history, which here has found its ideal biographer. The sheer enjoyment which this book will give anyone who loves history is enormous. An Instant New York Times Bestseller! If I Stay meets Your Name in Dustin Thao's You've Reached Sam, a heartfelt novel about love and loss and what it means to say goodbye. Seventeen-year-old Julie Clarke has her future all planned out—move out of her small town with her boyfriend Sam, attend college in the city; spend a summer in Japan. But then Sam dies. And everything changes. Heartbroken, Julie skips his funeral, throws out his belongings, and tries everything to forget him. But a message Sam left behind in her yearbook forces memories to return. Desperate to hear him one more time, Julie calls Sam's cell phone just to listen to his voice mail recording. And Sam picks up the phone. The connection is temporary. But hearing Sam's voice makes Julie fall for him all over again and with each call, it becomes harder to let him go. What would you do if you had a second chance at goodbye? A 2021 Kids' Indie Next List Selection A Cosmo.com Best YA Book Of 2021 A BuzzFeed Best Book Of November A Goodreads Most Anticipated Book INSTANT NEW YORK TIMES BESTSELLER Named Most Anticipated of 2021 by Newsweek, Good Housekeeping,

Hello! magazine, Oprah.com, Bustle, Popsugar, Betches, Sweet July, and GoodReads! March 2021 Indie Next Pick and #1 LibraryReads Pick “A bold, edgy, accomplished debut!” –Kate Quinn, New York Times bestselling author of *The Alice Network* A forgotten history. A secret network of women. A legacy of poison and revenge. Welcome to *The Lost Apothecary*... Hidden in the depths of eighteenth-century London, a secret apothecary shop caters to an unusual kind of clientele. Women across the city whisper of a mysterious figure named Nella who sells well-disguised poisons to use against the oppressive men in their lives. But the apothecary’s fate is jeopardized when her newest patron, a precocious twelve-year-old, makes a fatal mistake, sparking a string of consequences that echo through the centuries. Meanwhile in present-day London, aspiring historian Caroline Parcewell spends her tenth wedding anniversary alone, running from her own demons. When she stumbles upon a clue to the unsolved apothecary murders that haunted London two hundred years ago, her life collides with the apothecary’s in a stunning twist of fate—and not everyone will survive. With crackling suspense, unforgettable characters and searing insight, *The Lost Apothecary* is a subversive and intoxicating debut novel of secrets, vengeance and the remarkable ways women can save each other despite the barrier of time. When Charlie Mack is hired by her ex-husband’s new wife, things get awkward quickly. Her ex, Franklin, has been charged with his brother-in-law’s murder. Charlie and Pamela both believe he didn’t do it; it’s the only thing they

will ever see eye-to-eye on. But he's also in hiding for some reason neither of them understands. To the police, it adds up to guilt, but to Charlie, it indicates that Franklin has stumbled into an unplanned, and perhaps life-threatening, complication. Charlie wants proof the case doesn't involve a double cross, and when the Mack Investigations team throws all their assets at the case, Charlie's girlfriend, Mandy demands assurance that Charlie's all-out efforts to find Franklin aren't driven by lingering romantic feelings. In the end, everyone involved learns that loyalty often runs much deeper than love.

Robots are perennial kid-favorites. In this series, acclaimed illustrator Marc Rosenthal's vividly colored, retro-futuristic robots encourage kids age 2 to 5 to lift the flaps and learn all about basic concepts. One Robot Lost His Head follows the travails of a slightly clumsy robot who can't quite keep track of his own head, and the smart robot pals who help him find it. A gatefold on each spread opens to reveal a visual punch line that teaches kids basic number skills while making them laugh. Each number is presented as a bold numeral, with a matching number of robots shown on the spread. The robots, though not human, are nevertheless full of charm, and their antics, captured perfectly in Marc Rosenthal's colorful, funny illustrations, are sure to crack up toddlers and preschool-age kids.

NATIONAL BESTSELLER • A twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history, from the author of *The Lost City of Z*. • **NATIONAL BOOK AWARD FINALIST** In the 1920s, the richest people per capita in the world were members of the

Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to try to unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history. Look for David Grann's latest book, *The Wager*, coming soon! Dr. Seuss's wonderfully wise *Oh, the Places You'll Go!* is the perfect gift to celebrate all of our special milestones—from graduations to birthdays and beyond! From soaring to high heights and seeing great sights to being left in a lurch on a prickly perch, Dr. Seuss addresses life's ups and downs with his trademark humorous verse and whimsical illustrations. The inspiring and timeless message encourages readers to find the success that lies within, no matter what challenges they face. A perennial favorite and a perfect gift for anyone starting a new phase in their life! NAMED A BEST BOOK OF 2017 BY THE BOSTON GLOBE AND THE SAN

FRANCISCO CHRONICLE "So filled with vivid descriptions and complex characters that the reader's experience is virtually cinematic. . . Utterly compelling." - The Washington Post From the author of *When We Lost Our Heads*, a spellbinding story about two gifted orphans - in love with each other since they can remember - whose childhood talents allow them to rewrite their future. *The Lonely Hearts Hotel* is a love story with the power of legend. An unparalleled tale of charismatic pianos, invisible dance partners, radicalized chorus girls, drug-addicted musicians, brooding clowns, and an underworld whose economy hinges on the price of a kiss. In a landscape like this, it takes great creative gifts to thwart one's origins. It might also take true love. Two babies are abandoned in a Montreal orphanage in the winter of 1914. Before long, their talents emerge: Pierrot is a piano prodigy; Rose lights up even the dreariest room with her dancing and comedy. As they travel around the city performing clown routines, the children fall in love with each other and dream up a plan for the most extraordinary and seductive circus show the world has ever seen. Separated as teenagers, sent off to work as servants during the Great Depression, both descend into the city's underworld, dabbling in sex, drugs and theft in order to survive. But when Rose and Pierrot finally reunite beneath the snowflakes - after years of searching and desperate poverty - the possibilities of their childhood dreams are renewed, and they'll go to extreme lengths to make them come true. Soon, Rose, Pierrot and their troupe of clowns and chorus girls have hit New York, commanding

the stage as well as the alleys, and neither the theater nor the underworld will ever look the same. With her musical language and extravagantly realized world, Heather O' Neill enchants us with a novel so magical there is no escaping its spell. "IN THE LONG RUN, WE'RE ALL DEAD. But for some of the most influential figures in history, death marked the start of a new adventure. The famous deceased have been stolen, burned, sold, pickled, frozen, stuffed, impersonated, and even filed away in a lawyer's office. Their fingers, teeth, toes, arms, legs, skulls, hearts, lungs, and nether regions have embarked on voyages that crisscross the globe and stretch the imagination. Counterfeiters tried to steal Lincoln's corpse. Einstein's brain went on a cross-country road trip. And after Lord Horatio Nelson perished at Trafalgar, his sailors submerged him in brandy--which they drank. From Mozart to Hitler, Rest in Pieces connects the lives of the famous dead to the hilarious and horrifying adventures of their corpses, and traces the evolution of cultural attitudes toward death"--Back cover. "Every decent friendship comes with a drop of hatred. But that hatred is like honey in the tea. It makes it addictive." Charismatic Marie Antoine is the daughter of the richest man in 19th century Montreal. She has everything she wants, except for a best friend--until clever, scheming Sadie Arnett moves to the neighborhood. Immediately united by their passion and intensity, Marie and Sadie attract and repel each other in ways that thrill them both. Their games soon become tinged with risk, even violence. Forced to separate by the adults around them,

they spend years engaged in acts of alternating innocence and depravity. And when a singular event brings them back together, the dizzying effects will upend the city. Traveling from a repressive finishing school to a vibrant brothel, taking readers firsthand into the brutality of factory life and the opulent lives of Montreal's wealthy, *When We Lost Our Heads* dazzlingly explores gender, sex, desire, class, and the terrifying power of the human heart when it can't let someone go. The stranger-than-fiction story of the ingenious creation and loss of an artificially intelligent android of science-fiction writer Philip K. Dick

In late January 2006, a young robotocist on the way to Google headquarters lost an overnight bag on a flight somewhere between Dallas and Las Vegas. In it was a fully functional head of the android replica of Philip K. Dick, cult science-fiction writer and counterculture guru. It has never been recovered. In a story that echoes some of the most paranoid fantasies of a Dick novel, readers get a fascinating inside look at the scientists and technology that made this amazing android possible. The author, who was a fellow researcher at the University of Memphis Institute of Intelligent Systems while the android was being built, introduces readers to the cutting-edge technology in robotics, artificial intelligence, and sculpture that came together in this remarkable machine and captured the imagination of scientists, artists, and science-fiction fans alike. And there are great stories about Dick himself—his inspired yet deeply pessimistic worldview, his bizarre lifestyle, and his enduring creative legacy. In the tradition of

popular science classics like *Packing for Mars* and *The Disappearing Spoon*, *How to Build an Android* is entertaining and informative—popular science at its best. Five hundred miles off southwest Africa lies the island of Pharamaul. In dense jungle live the notorious Maula tribe, kept under surveillance by a solitary District Officer and his young wife. When Chief-designate, Dinamaula, returns England with a spirited desire to speed the development of his people, political crisis erupts. For use in schools and libraries only. A kindly dragon, with an aversion to killing insects for dinner, grows into a monster as a result of his vegetarian diet. Inventive, outlandish, and tender fairy tales from a bestselling author. The fantastic has always been at the edges of Heather O'Neill's work. In her bestselling novels *Lullabies for Little Criminals* and *The Girl Who Was Saturday Night*, she transformed the shabbiest streets of Montreal with her beautiful, freewheeling metaphors. She described the smallest of things—a stray cat or a second-hand coat—with an intensity that made them otherworldly. In *Daydreams of Angels*, O'Neill's first collection of short stories, she gives free reign to her imaginative gifts. In "The Ugly Ducklings," generations of Nureyev clones live out their lives in a grand Soviet experiment. In "Dear Piglet," a teenaged cult follower writes a letter to explain the motivation behind her crime. And in another tale, a grandmother reveals where babies come from: the beach, where young mothers-to-be hunt for infants in the surf. Each of these beguiling stories twists the beloved narratives of childhood—fairy tales, storybooks, Bible stories—to

uncover the deepest truths of family life. An instant New York Times bestseller • A New York Times Notable Book of 2022 • A TIME Magazine Best Book of 2022 • One of The Washington Post's Best Books of 2022 • A Reese's Book Club Pick From the #1 bestselling author of Little Fires Everywhere, comes the inspiring new novel about a mother's unbreakable love in a world consumed by fear. "It's impossible not to be moved." –Stephen King, The New York Times Book Review "Riveting, tender, and timely." –People, Book of the Week "Thought-provoking, heart-wrenching...I was so invested in the future of this mother and son, and I can't wait to hear what you think of this deeply suspenseful story!" –Reese Witherspoon (Reese's Book Club October '22 Pick) Twelve-year-old Bird Gardner lives a quiet existence with his loving but broken father, a former linguist who now shelves books in a university library. His mother Margaret, a Chinese American poet, left the family when he was nine years old without a trace. Bird knows to not ask too many questions, stand out too much, or stray too far. For a decade, his family's life has been governed by laws written to preserve "American culture" in the wake of years of economic instability and violence. To keep the peace and restore prosperity, the authorities are now allowed to relocate children of dissidents, especially those of Asian origin, and libraries have been forced to remove books seen as unpatriotic. Bird has grown up disavowing his mother and her poems; he doesn't know her work or what happened to her, and he knows he shouldn't wonder. But when he receives a mysterious letter

containing only a cryptic drawing, he is pulled into a quest to find her. His journey will take him back to the many folktales she poured into his head as a child, through the ranks of an underground network of librarians, into the lives of the children who have been taken, and finally to New York City, where a new act of defiance may be the beginning of much-needed change. Our Missing Hearts is an old story made new, of the ways supposedly civilized communities can ignore the most searing injustice. It's a story about the power—and limitations—of art to create change, the lessons and legacies we pass on to our children, and how any of us can survive a broken world with our hearts intact. Our history is littered with heads. Over the centuries, they have decorated our churches, festooned our city walls and filled our museums; they have been props for artists and specimens for laboratory scientists, trophies for soldiers and items of barter. Today, as videos of decapitations circulate online and cryonicists promise that our heads may one day live on without our bodies, the severed head is as contentious and compelling as ever. From shrunken heads to trophies of war; from memento mori to Damien Hirst's *With Dead Head*; from grave-robbing phrenologists to enterprising scientists, Larson explores the bizarre, often gruesome and confounding history of the severed head. Its story is our story. Morning Analysis CEO Buster Das has been found dead in his office with his head bashed in. When unlikely detective duo Sandesh Solvekar and Mona Ramteke make it their mission to catch the reckless criminal, they find themselves knee-deep in

Mumbai ' s sordid world of dissolute starlets, business moguls and a sell-out media, even as they attempt to deal with a dysfunctional police machinery and their own secret lives. The list of suspects is also turning out to be a headscratcher: there ' s the eccentric editor-in-chief; the irreverent dating editor; and several vice-presidents who would kill to be CEO. A whodunit as wicked as it is irresistible, this is a cracker of a novel that takes Indian crime writing to dazzling new heights. The Searing Portrayal Of War That Has Stunned And Galvanized Generations Of Readers An immediate bestseller upon its original publication in 1939, Dalton Trumbo's stark, profoundly troubling masterpiece about the horrors of World War I brilliantly crystallized the uncompromising brutality of war and became the most influential protest novel of the Vietnam era. Johnny Got His Gun is an undisputed classic of antiwar literature that's as timely as ever. ?A terrifying book, of an extraordinary emotional intensity.?--The Washington Post "Powerful. . . an eye-opener." --Michael Moore "Mr. Trumbo sets this story down almost without pause or punctuation and with a fury amounting to eloquence."--The New York Times "A book that can never be forgotten by anyone who reads it."--Saturday Review

Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock presents a compelling case to suggest that it is. " A fancy piece of historical sleuthing . . . intriguing and entertaining and sturdy enough to give a long

pause for thought.” –Kirkus Reviews In Fingerprints of the Gods, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind’s hidden past. In ancient monuments as far apart as Egypt’s Great Sphinx, the strange Andean ruins of Tihuanaco, and Mexico’s awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as-yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking number one bestseller in Britain, Fingerprints of the Gods contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And Fingerprints of God tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur. “Readers will hugely enjoy their quest in these pages of inspired storytelling.” –The Times (UK) A NEW YORK TIMES EDITORS’ CHOICE “A strange and tender parable . . . All of Edward Carey’s work is profound and delightful.” –Max Porter, author of Lanny The ingenious storyteller Edward Carey returns to reimagine a time-honored fable: the story of an impatient father, a rebellious son, and a watery path to forgiveness for the young man known as Pinocchio In the small Tuscan town of Collodi, a lonely woodcarver longs for

the companionship of a son. One day, “as if the wood commanded me,” Giuseppe—better known as Geppetto—carves for himself a pinewood boy, a marionette he hopes to take on tour worldwide. But when his handsome new creation comes magically to life, Geppetto screams . . . and the boy, Pinocchio, leaps from his arms and escapes into the night. Though he returns the next day, the wily boy torments his father, challenging his authority and making up stories—whereupon his nose, the very nose his father carved, grows before his eyes like an antler. When the boy disappears after one last fight, the father follows a rumor to the coast and out into the sea, where he is swallowed by a great fish—and consumed by guilt. He hunkers in the creature’s belly awaiting the day when he will reconcile with the son he drove away. With all the charm, atmosphere, and emotional depth for which Edward Carey is known—and featuring his trademark fantastical illustrations—*The Swallowed Man* is a parable of parenthood, loss, and letting go, from a creative mind on a par with Gregory Maguire, Neil Gaiman, and Tim Burton. Investigates Plato's account of the tripartite soul, looking at how the theory evolved over the *Republic*, *Phaedrus* and *Timaeus*. A New York Times Bestseller “A smart, edge-of-your-seat story with plot twists you’ll never see coming. Stacy Willingham’s debut will keep you turning pages long past your bedtime.” —Karin Slaughter

When Chloe Davis was twelve, six teenage girls went missing in her small Louisiana town. By the end of the summer, her own father had confessed to the crimes and was put away for life,

leaving Chloe and the rest of her family to grapple with the truth and try to move forward while dealing with the aftermath. Now twenty years later, Chloe is a psychologist in Baton Rouge and getting ready for her wedding. While she finally has a fragile grasp on the happiness she's worked so hard to achieve, she sometimes feels as out of control of her own life as the troubled teens who are her patients. So when a local teenage girl goes missing, and then another, that terrifying summer comes crashing back. Is she paranoid, seeing parallels from her past that aren't actually there, or for the second time in her life, is Chloe about to unmask a killer? From debut author Stacy Willingham comes a masterfully done, lyrical thriller, certain to be the launch of an amazing career. *A Flicker in the Dark* is eerily compelling to the very last page. Recounts the life of the French chemist whose work helped transform many of the undocumented scientific beliefs of the Middle Ages into an exact science. With the intrigue of a psychological thriller, Camus's masterpiece gives us the story of an ordinary man unwittingly drawn into a senseless murder on an Algerian beach. Behind the intrigue, Camus explores what he termed "the nakedness of man faced with the absurd" and describes the condition of reckless alienation and spiritual exhaustion that characterized so much of twentieth-century life. First published in 1946; now in translation by Matthew Ward. A modern-day fable that's so funny you'll laugh your head off! What would you do if your daddy lost his head? You'd make him a new one of course! All you need is some old newspapers, paint and a potato for

his use. It turns out there are lots of advantages to having a dad with no head: he doesn't shout or snore, he always agrees with you, and he loves doing the hoovering. But will Daddy ever find his real head? The kids in Room 207 take advantage of their teacher's good nature until she disappears and they are faced with a vile substitute. "Rarely has the golden rule been so effectively interpreted for children."--"Booklist." Full-color illustrations.
